FOOTBALL RULES STUDY QUESTIONS

LHSAA Study Guide Questions: The final test will come from these questions. LHSAA test questions come from the **NFHS Rules Book**, including rule changes, **Points of Emphasis** and **Fundamentals**, as well as the **Louisiana Mechanics Manual** and **NFHS Case Book**.

NOTE: In the following questions, “**A**” refers to the team which puts the ball in play (Offense), and “**B**” refers to their opponents (Defense). “**K**” refers to the kicking team and “**R**” refers to the receiving team. “**A1**”, “**A2**”...etc., “**B1**”... “**K1**”...and “**R1**” are players of these teams. **Important:** Answers to these questions should be selected based solely on the information stated therein.

1. During the months of August and September, there shall be a mandatory heat time-out at the halfway point of every quarter. These time-outs shall be official time-outs and will allow the players to rest briefly and hydrate their bodies. [3-5-7g; LHSAA Handbook: Football 14.3.10]
2. All officials should ensure that they have all their uniform items and other gear prior to leaving for game site and that everything is neat and clean other than their shoes which could be a little worn and dirty especially later in the season. [Appendix II – Crew Uniform – Uniform]
3. Clock operators should try to get to the game site to meet with the crew at the designated time, recommended to be at least 90 minutes prior to kickoff, but being a little late is ok because they are not field officials. [Mech Manual – 5, 6 and 7-man mechanics Item III A.]
4. The game officials shall assume authority for the game **30** minutes prior to the scheduled game time or as soon thereafter as they are able to be present. This authority extends through the **Referee’s** declaration of the end of the 4TH period or overtime. [1-1-7, 8; Case Book 1.1.7]
5. Even though the home team game administrators are responsible for the game clock equipment, it is the responsibility of the game clock operator to check the clock prior to the start of the game to confirm it functions properly. [Mech Manual – Game Clock Mechanics – Game Clock Operator #1]
6. Clock operators should generally not engage in conversation with others in the press box but responding to simple questions about obvious calls on the field is polite and considered ok. [Mech Manual – Game Clock Mechanics – Game Clock Operator #2]
7. On the opening kickoff, R12 attempts to catch the kick near the sideline but the ball bounces off his shoulder and skips out of bounds at the 15 yard line; the next play should be 1st and 10 @ the 15 and the game clock should show less than 12:00 min remaining in the quarter. [3-4-1; 6-1-10]
8. The clock operator is sure the game clock should be started after a first down with the ball inbounds but the Referee fails to signal by winding the clock. The

correct thing for the clock operator to do is to not start the clock as that decision must rest with the Referee. [Mech Manual – Game Clock Mechanics – Game Clock Operator #4]
