

Note: This section attempts to provide a thorough explanation of the recruiting rule. While there are many explanations involved, this rule does not cover every conceivable example of recruiting. Schools are expected to educate all employees, athletic department staff members, and representatives of the school's athletic interests about acts that are prohibited by this policy. Schools must immediately report to the LHSAA such impermissible acts when they are discovered to have occurred.

2.1 RECRUITING VIOLATIONS

- 2.1.1** Recruitment of students or attempted recruiting of students for athletic purposes, regardless of their residence, is a gross violation of the spirit and philosophy of these Bylaws and is expressly prohibited.
- 2.1.2** "Athletic recruiting" is defined as the use of undue influence and/or special inducement by anyone connected directly or indirectly with an LHSAA school in an attempt to encourage, induce, pressure, urge or entice a prospective student of any age to transfer to or retain a student at a school for the purpose of participating in interscholastic athletics.
- 2.1.3** Recruiting for athletic purposes is not only a violation by the student who has been recruited, but is also a violation by the school and/or the school personnel who recruited the student. It is a violation to recruit for athletic purposes regardless of a student's age or grade level. If proof is established that a school has secured an athlete under any of the conditions set forth in this section, the principal shall be required to appear before the Executive Committee and the Executive Director to answer the allegations against his/her school and the student(s) may be ineligible to participate in athletics, not to exceed four calendar years.
- 2.1.4** It shall be a violation of this rule for a student-athlete to receive or be offered remuneration or special inducement of any kind that is not made available to all applicants who apply to or enroll in the school.
- 2.1.5** A student transferring from one member school to another shall be ruled ineligible for one calendar year from the date of enrollment because of "undue influence" if:
1. It is determined that a coach, including non-faculty, of the receiving school coached an out-of-school team and/or club, AAU, or any similar organization as determined by the Executive Director on which the athlete played; or it is determined the coach, including non-faculty, at the receiving school acted as a private athletic instructor for the transferring athlete, regardless of whether the coach was paid for his/her services and/or expertise; or
 2. It is determined the transferring student played on an out-of-school team made up of a simple majority of students from the receiving school; or
 3. A student transfers to a new school within one calendar year of the relocation of his/her coach, including non-faculty, to that school.
 4. Bylaw 2.1.5 (1-3) shall be enforced even in the event the student made a bona-fide move into the receiving school's attendance zone.

2.2 GUIDELINES

- 2.2.1** Evidence of undue influence or special inducement of a student or the parents or guardians of a student by anyone connected directly or indirectly with an LHSAA school includes, but is not limited to the following:

2.2.2 Other inducements or attempts to encourage a prospective student to attend a school for the purpose of participating in athletics, even when special remuneration/inducement is not given, shall be a violation. It shall be a violation for a school to offer and/or grant special favors, privileges or inducements of any kind including payment of fees to a student-athlete(s) under any circumstances not offered and/or granted to a non-student-athlete(s) who attends the school.

1. Visiting or entertaining the student or any of his/her relatives in an attempt to pressure, urge, or entice the student to attend the school to participate in interscholastic athletics.

The student or his/he relatives instead should be immediately referred to the school employee responsible for registrations or admissions.
 6. Providing transportation to the student or any of his/her relatives to visit the school, to take an entrance examination for the school, to participate in an athletic tryout at the school, or to meet with a school employee, athletic department staff member or other representative or the school's athletic interests as part of an effort to pressure, urge to facilitate the student's attendance at that school to participate in interscholastic athletics.
 7. A coach may not contact a student or the student's parents prior to enrollment in the school.
 8. School-connected individuals shall refrain from statements to prospective students athletes such as, "we would like to have you play for us", "you would look good in our uniform", "you could make a difference for our team," etc. These types of statements are not normal or appropriate and could be considered recruitment.

2.3 ACADEMIC RECRUITMENT PROGRAMS

- 2.3.1** A school may conduct an academic recruitment program designed to attract students to the school based upon its total educational and extracurricular (athletic and activities) programs. A school must not use an academic recruitment program as a disguise for athletic recruiting.
- 2.3.2** No member school or anyone acting on behalf of a member school shall give a speech, slide, film, or tape presentation, or distribute any written material which implies that a school's athletic program is better than the athletic program of other member schools or implies that it would be advantageous for a prospective student-athlete to participate in athletics at that member school as opposed to any other.
- 2.3.3** In the enforcement of this rule, member schools shall be responsible for any violation committed by a person associated with the school including principals, assistant principals, coaches, teachers, other staff members, students, members of organized alumni associations, booster groups, quarterback clubs, or other similar organizations acting at the direction of the school.
- 2.3.4** Any presentation conducted as part of a school's academic recruitment program must promote the school's overall educational program and may include its extracurricular programs. Any mention of the school's interscholastic athletics program must be limited to a listing of the interscholastic sports sponsored by the school and to a description of the school's athletic facilities. It is understood that the presentations and activities of all persons involved in the school's academic recruitment program must avoid any references to the school's athletic program that might pressure, urge or entice a student to attend that school for purposes of athletic participation. All such

presentations and activities must be in keeping with the general spirit of the rules prohibiting athletic recruiting and such recruitment programs must be designed to present the overall educational and extracurricular programs of the school and not be a subterfuge for recruiting students for athletic purposes.

2.3.5 General recruitment programs permissible under this rule shall be carried out under the following guidelines:

1. Member schools may present speeches, slides, films, tapes, or other similar programs to students at elementary, junior high, or middle schools with grades below the 9th from which the member school can normally expect enrollment as long as they have the principal's permission and the presentations are designed to attract students to attend the school and are based on overall educational programs and not solely for the purpose of recruiting prospective athletes. Any mention of athletics in said speeches, films, slides, tapes, or other such presentations or in any written materials distributed at such presentations shall be limited to listing the various interscholastic sports the school participates in and a description of the athletic facilities available at the school.
2. Member schools may conduct an open house, but information distributed at the open house or in advertisements for the open house concerning the school's athletic program shall be limited to listing the various interscholastic sports the school participates in and to a description of the school's facilities. No information distributed at a school's open house, through any speech, written material, film, slide, photograph, or other material shall imply that the school's athletic program is better than another school's athletic program or that it would be advantageous for a prospective student-athlete if he/she participates in athletics at that school as opposed to some other.
3. It shall be a violation for any individual connected with a school to visit a school and contact a student(s) who attends a school physically located outside of the attendance zone of the school that the individual is connected for any reason without the express permission of the student's school principal.

2.4 FINANCIAL ASSISTANCE

2.4.1 If tuition is charged, it must be paid by parents, legal guardian, or other relative. If a parent, guardian, or other relative secures a loan for payment of tuition, it must remain an obligation of the parent, guardian, or other relative to repay the principal and interest in full with no exceptions. Schools that charge tuition may administer school-based financial assistance programs for students who attend those schools. Financial assistance is defined as funds from various sources that are administered and provided by a school to students to pay or assist in paying costs directly related to their education at the school. Financial assistance must be totally unrelated to a student's athletic interest, potential or performance.

2.4.2 School administered financial assistance provided by a school must be administered by the school; meaning that the school, through an established process that conforms to this policy, makes the final determination of the student who is to receive the assistance and the amount of assistance to be given. No student-athlete may accept financial assistance from any other person, business or organization unless it is received from one upon whom the student-athlete is naturally or legally dependent.

2.4.3 **Criteria for Providing School-based Financial Assistance:** Financial assistance must be based entirely on financial need. The amount of financial assistance for which a student is determined to qualify must meet the same guidelines of financial assistance which is provided to each and every student who qualifies for financial assistance. Financial assistance must be totally unrelated to a student's athletic interest, potential or performance. Financial assistance based even partially on a student's athletic interest, potential or performance shall be prohibited. In order to determine the basis for need, effective January 2015, all schools awarding financial aid shall use an LHSAA-recognized agency as approved by the Executive Committee. The use of any unapproved agency shall render the student ineligible.

2.4.4 **Work-Study Programs:** A work-study program in which students receive financial assistance from a school in exchange for labor performed by the student for the school may be operated as follows:

1. The school must limit participation in the work-study program to those students who have been independently determined to have a need for financial assistance.
2. The school must maintain a complete written description of the work-study program and the process for determining the students who are chosen for participation.
3. The school must maintain detailed records regarding each student who participates in the work-study program. These records must include a description of the job(s) performed by the student, a documentation of the hours worked by the student, and the amount of financial assistance given the student in exchange for his/her labor.

4. Athletic department staff members and other representatives of the school's athletic interests cannot supervise only student-athletes in work-study programs.

2.4.5 Records Relating to Financial Assistance: The school must keep detailed records of school-based financial assistance provided to each student. This includes the report of the student's financial need as determined by the school's financial aid guidelines. The school must make all records available to the Executive Director or his/her designee for inspection upon request. Failure to provide records upon request shall render the student(s) ineligible for participation in any athletic contests until the records are made available. Member schools that award financial aid shall complete the LHSAA Financial Assistance Records Form and remit to the LHSAA signed by the principal of the school by September 15 each year giving the following information:

1. Number of students in grades 9-12 enrolled in the school.
2. Number of students in grades 9-12 receiving financial aid.
3. Number of students in grades 9-12 participating in LHSAA athletics.
4. Number of students in grades 9-12 participating in LHSAA athletics receiving financial aid (The names of the students receiving financial aid may be requested).

8. Total dollar amount of financial aid that has been awarded to students in grades 9-12 participating in LHSAA athletics.

2.4.6 Contact Initiated by Prospective Student: When a school employee, athletic department staff member, or representative of a school's athletic interests is contacted by a student who does not attend that school and/or any of his/her relatives, about the school's interscholastic athletic program or attending the school, the school employee, athletic department staff member or representative of the school's athletic interests must immediately refer the student and/or his/her relatives to the appropriate school personnel who have the responsibility of registering and admitting prospective students. No school employee, an athletic department staff member, nor representative of the school's athletic interests may suggest to or promise a prospective student or any of his/her relatives that any part of the student's costs of attending the school may be reduced, waived or paid for, or that financial assistance may be granted for any reason.

2.4.7 Involvement of Athletic Personnel in Administration of Assistance Program: Active athletic coaches, other than a principal, are prohibited from sitting on the school's financial assistance committee or otherwise play any role in the process of deciding which students receive financial assistance or the types or amount of assistance they will be given.

2.4.8 Assistance Based on Criteria Other Than Need: A school that provides financial assistance to students based on any criteria other than financial need must make an annual report to the LHSAA Office. The report shall include:

1. The name of each student-athlete who is receiving such assistance;
2. The criterion upon which the assistance is based (must have no relationship to athletic interest, potential or performance);
3. The amount of the assistance; and
4. The source of the funding (e.g. foundation, private donation, etc.) for the assistance.

2.4.9 Contributions by Donor: Funds that are donated to schools by persons, businesses and organizations may be given as financial assistance to students provided the decision as to how the funds are allocated rests exclusively with the school. It is not permissible for a donor to contribute funds to provide financial assistance for a particular student-athlete.
