

4.1 **GENERAL**

- 4.1.1** Philosophically, the LHSAA believes that diversification or involvement in a variety of activities is a good and wholesome thing. The LHSAA believes that student-athletes should NOT be channeled into one activity but should be encouraged to participate in a variety of activities sponsored by a member school. The LHSAA wishes to enhance involvement while at the same time discourage the exploitation of students by overzealous individuals and organizations who attempt to impose an obligation or pressure on the student. Blanket statewide policies to prohibit excessive school and school personnel involvement out of season are difficult to write and even more difficult to enforce. It is not the intent of the LHSAA with its rules and interpretations in this area to limit opportunities for boys and girls. Designating sport seasons' length is an attempt to provide balance to the athletic calendar and to afford students an opportunity to compete in a variety of sports throughout the school year and is designed to function so little or no conflicts shall exist between in-season sports and out-of-season sports. The school principal shall be responsible for assuring that the coaches under his/her charge are in strict compliance with the provisions of the sports season rule. The sports season concept extends from the 6th through the 46th week of the NFHS calendar year.
- 4.1.2** The LHSAA sports season for a school team is defined as that period beginning with the opening date of practice as called by each coach within the official starting dates and extending through the school team's last game of the season to include playoff games and the state championships, if applicable, in a particular sport. The actual sports seasons for an individual sport can be found under the "Important Dates" section at the beginning of each sports section in the handbook.
- 4.1.3 Practice Regulations:** Any practice shall be in accordance with the following regulations:
1. Student-athletes shall not engage in more than three hours of practice activities on those days during which one practice is conducted.
 2. Student-athletes shall not engage in more than five hours of practice activities on those days during which more than one practice is conducted.
 3. The maximum length of any single practice session shall be three hours.
 4. On days when more than one practice is conducted, there shall be, at a minimum, two hours of rest/recovery time between the end of one practice and the beginning of the next practice. Rest/recovery time shall be defined as void of any team or individual activity including but not limited to weight training sessions, conditioning sessions, skull sessions, film sessions, or any other similar athletic session.
 5. Schools shall not schedule multiple practices on consecutive days, and student-athletes shall not participate in multiple practices on consecutive days.
- 4.1.4** Subject to the approval of the school principal, a coach may have out-of-season organizational meetings with his/her players or potential players. Other than these organizational meetings, a coach shall not organize, supervise, administer, or direct out-of-season practices, meetings, or gatherings of student-athletes in the school. This includes: tryouts, informal workouts in a particular sport, and classroom sessions in a particular sport. Restrictions do not include strength and conditioning programs; these programs shall be allowed under this rule (subject to the approval of the school principal).
- 4.1.5** Subject to the approval of the school principal, facilities may be used for voluntary out-of-season play, open to all students and required, directly or indirectly, of none. For safety purposes, school personnel may be present as observers of free play, but coaching and instruction are forbidden. "Open gym/field activities" are permitted if they are voluntary and not part of the team selection process and adhere to these principles:
1. Diversity of students - must be open to all;
 2. Student conducted - students choose from offered activities and any coach of a sport under LHSAA jurisdiction shall not coach, instruct, critique, direct, evaluate, or participate in a sport he/she coaches;
 3. Recreational emphasis - the program is not an organized program of instruction and/or competition and there shall not be any organized drills, practice structure and no instruction regarding offensive or defensive schemes by any person, including team members and parents.

4.1.6 Subject to the approval of the school principals, coaches may teach the fundamental skills and techniques of the specific sport during the out-of-season period with a limited number of student athletes. Outside the sports seasons but during the school year, coaches are prohibited from providing coaching at any one time under one roof, facility, or campus to more than four students in grades 7-12 of the school or school system for which they coach. This does not allow two coaches to coach eight students from the same school; no matter how many coaches are present, no more than four players per session from the same school may be involved in out-of-season drills and techniques during the school year. This not only applies to the specific sport(s) coached by the coach, but it applies to all levels and all genders, whether the coach is paid or volunteers.

4.2 INDEPENDENT OR NON-HIGH SCHOOL TEAMS

4.2.1 A student who is a member of an LHSAA member high school team may not participate in practices or games with an independent team in the same sport in which he/she is competing.

4.2.2 Participation in an independent team tryout, a sports camp or clinic, during the school's sports season is permissible provided the student is limited to participation in individual drills and refrains from any type of team play.

Practicing with or playing on an independent team while a student is a member of the school team in that same sport shall be a violation of this rule. This rule shall be in effect for a student from the time he/she reports for the school team until the student is no longer a member of the school team for any reason, or until the team has completed its sports season including state playoffs, if applicable.

4.2.5 A student who is a member of an LHSAA school team shall not participate in any manner in an event, a meet or a contest as an unattached contestant against a high school team, a junior high school team, a collegiate team, a club team or other unattached individuals in that same sport. One individual shall constitute a team in indoor and outdoor track and field.

4.2.6 A student-athlete who plays on an independent team shall not have his/her high school eligibility affected, provided such play takes place after his/her school has completed its sports season and/or before he/she becomes a member of a school team in the fall. Participation with an independent team is legal in the following situations:

1. Prior to reporting for the school team for the first official practice date.

A school sponsored team or group of any number of students sponsored by the school which resembles the school's team, is not permitted to practice or compete outside the LHSAA defined season for that sport. Any non-school group can sponsor activities which involve groups of athletes which are mainly or exclusively members of a school team but a school cannot sponsor practice or competition by its team out of season. Students may participate on a voluntary basis in any activity, as a member of a non-school team or on an individual basis. - 4.5.2 During the defined summer period, any number of students from the same school, may play on an independent team without affecting his/her eligibility regardless of who coaches the independent team in a game(s) (faculty or non-faculty member).
